Product Architect & Design Leader

I build the operational backbone of design teams. Systems, workflows, and AI-first frameworks that let teams of all sizes deliver at scale. 18+ years spanning fintech, enterprise, and healthcare, with a consistent pattern of bringing structure where there is none.

Education

2004 - B.S. Marketing | Pacific Union College

2010 - New Media Arts Design | Kapiolani Community College

Leadership

- Team management
- Workshop facilitation
- Stakeholder management
- Design operations

Design

- Design systems
- Interaction design

- Accessibility

AI Workflows

- Claude
- Claude Code
- ChatGPT Codex
- Gemini
- Cursor
- Figma MCP

Technical

- React
- Angular
- TypeScript
- HTML/CSS
- Git

Experience

Principal Product Designer & Design Manager
Kontakt.io | Feb 2024 – Feb 2026 | New York City

- Architected an AI first design operating model enabling a two person team to deliver across five concurrent products without expanding headcount.
- Built a repository based design system governing AI generated UI and enforcing system level architecture across products.
- Implemented token driven, framework agnostic architecture reducing engineering rework and improving release reliability.

Principal Product Designer (Contract)
CreditSights, Fitch Group | Jun 2023 – Sep 2023 | New York City

- Redesigned fragmented email based research routing into a structured submission and tracking system.
- Improved dashboard information architecture within a dense institutional research platform.

Senior Design Manager
Publicis Groupe (Verizon) | Jan 2020 – Mar 2023 | New York City

- Directed design for Verizon's first B2B digital commerce platform bringing wireless purchasing online.
- Built and led a 9 to 12 person design team across commerce, billing, and smart family initiatives.
- Orchestrated delivery across a 36 stakeholder ecosystem spanning product, marketing, legal, and executives.

VP, Experience Lead
Goldman Sachs | Jun 2019 – Jan 2020 | New York City

- Led UX strategy for a regulated wealth management trading platform.
- Facilitated cross functional alignment across product and engineering.

VP, UX Design Lead
JP Morgan Chase | Aug 2018 – Apr 2019 | New York City

- Led the Core pillar of the Finn mobile banking app overseeing 9 designers.
- Directed system level information architecture and interaction design.

Previous Experience

- Independent Design Consultant and Agency Roles | 2006 – 2018
- Delivered web and digital product design across 100+ client engagements.
